Texas State Operations Center

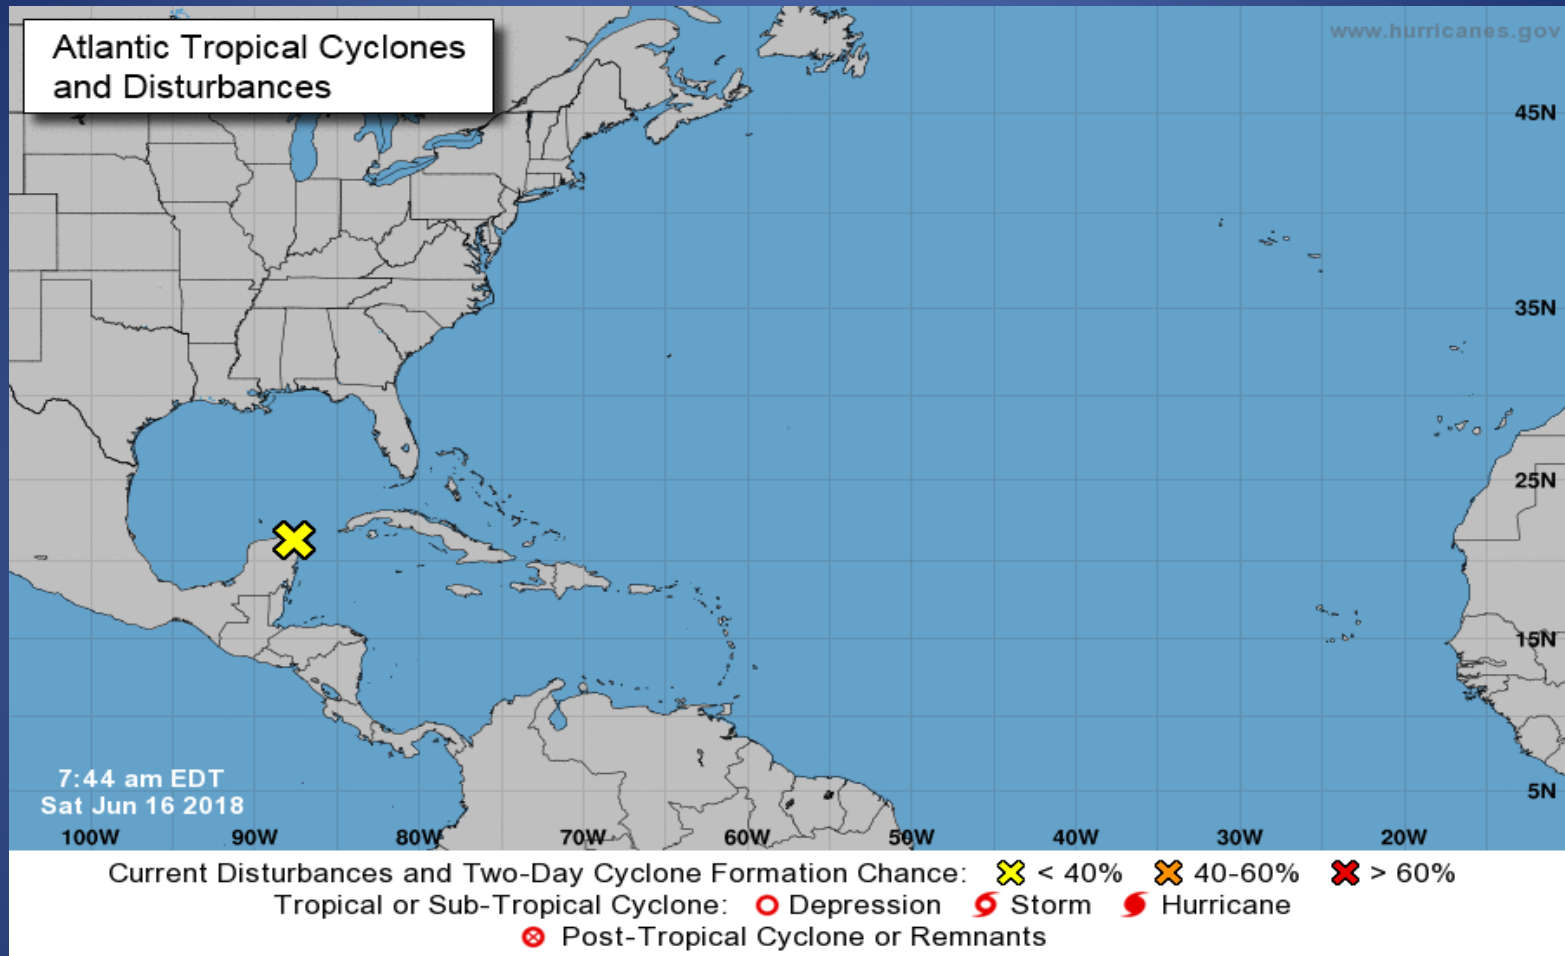

Situation Awareness Brief

Saturday, June 16th 2018
As of 0900 CST

Tropical Weather Awareness

For the North Atlantic...Caribbean Sea and the Gulf of Mexico: Disorganized showers and thunderstorms associated with a surface trough and an upper-level low are occurring over the Yucatan Peninsula and the southern Gulf of Mexico. Although environmental conditions are not expected to be favorable for significant development, heavy rains and gusty winds are likely to spread across the central Gulf of Mexico today and will reach portions of the Texas and southwestern Louisiana coasts on Sunday. For more details on this system please see products issued by your local weather office and High Seas Forecasts issued by the National Weather Service. * Formation chance through 48 hours...low...10 percent. * Formation chance through 5 days...low...10 percent.

Hazardous Weather

Saturday High Temperatures

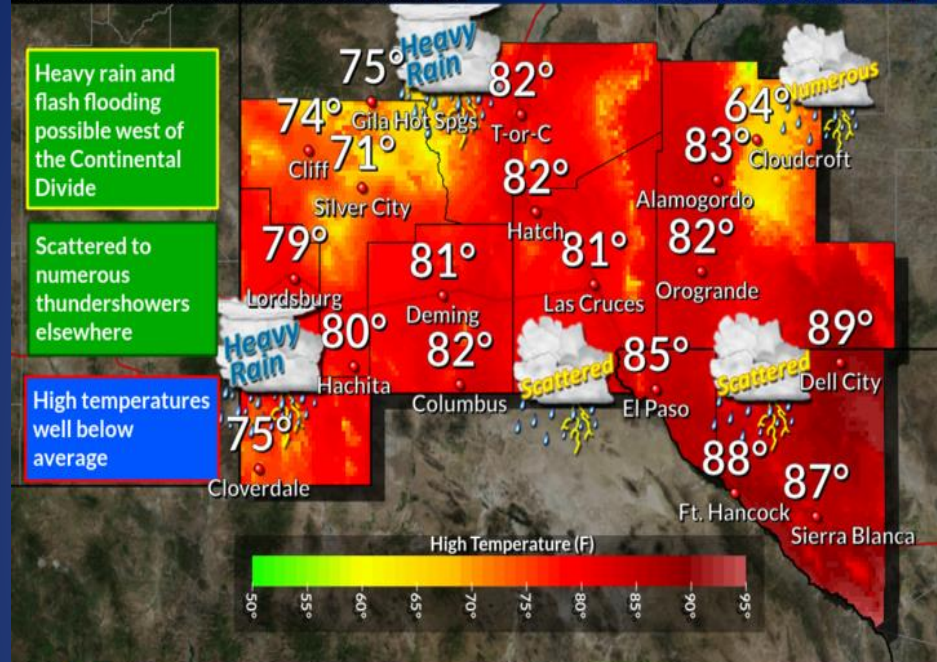

Weather Forecast Office

El Paso, TX

Issued Jun 15, 2018 6:51 PM MDT

Scattered to Numerous Rain showers across the area

@NWSEIPaso

weather.gov/epz

Abundant moisture from former Hurricane Bud will move across the area during the day on Saturday. We will see scattered to numerous rain and thundershowers off and on during the day. A few spots, especially west of the Continental Divide could receive 1 to 2 inches of rain which could lead to some isolated flash flooding. High temperatures will be almost 10 degrees below average.

Saturday

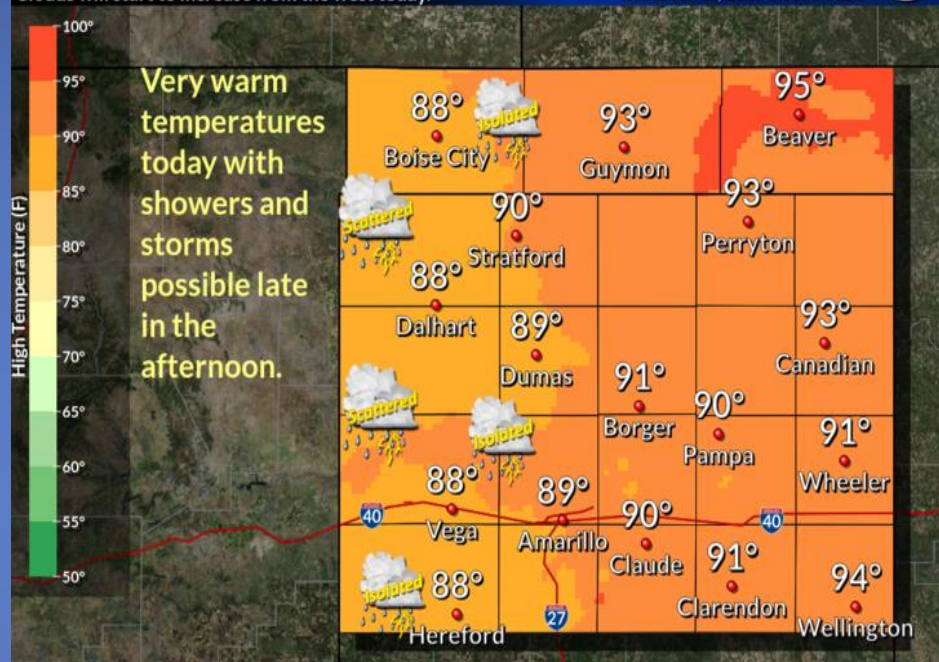

Weather Forecast Office

Amarillo, TX

Issued Jun 16, 2018 4:31 AM CDT

Clouds will start to increase from the west today.

NWSAmarillo

weather.gov/ama

Warm temperatures today, with showers and storms possible late this afternoon and into the evening, increasing in coverage to the east tonight.

Hazardous Weather

Flash Flood Watch

Weather Forecast Office
Midland/Odessa, TX
Issued June 16, 2018 4:00 CT

5 PM CDT Saturday through 8 AM CDT Sunday.

A **Flash Flood Watch** means flash flooding is possible near or downstream of any storm.

Recent burn scars, urban & poor drainage areas in particular will be more susceptible to **Flash Flooding** during this time.

1 to 2" accumulations with locally higher amounts possible

If you encounter flooded roadways, Turn Around Don't Drown!

Preparedness Actions

Be sure you have multiple ways to receive warnings!

f t NWSMidland

weather.gov/maf

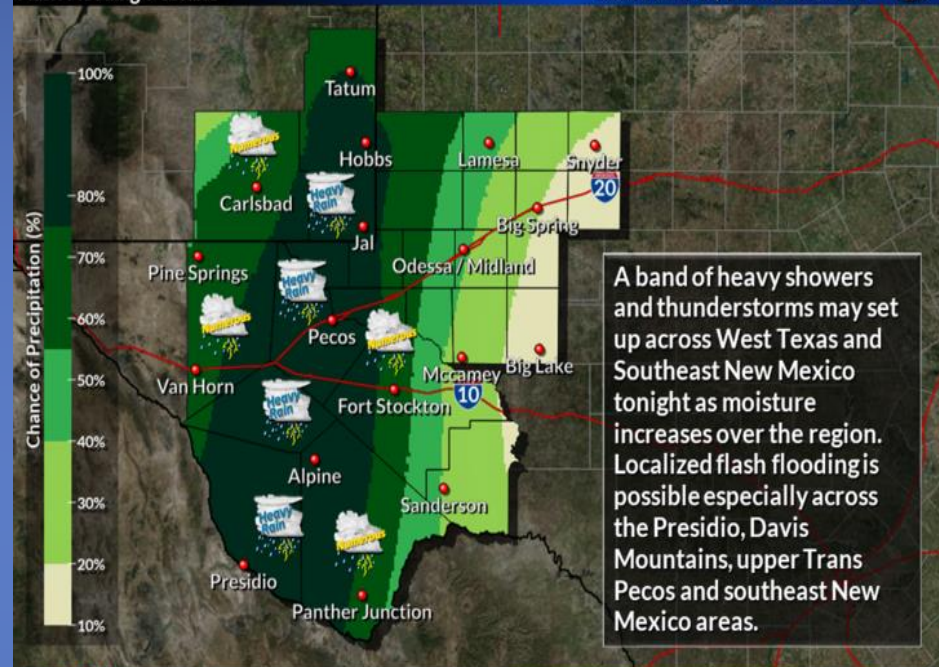

A **Flash Flood Watch** is in effect late this afternoon through Sunday morning for Presidio, Jeff Davis and Brewster Counties, where 1 to 2 inches of rainfall with locally higher amounts will be possible.

Heavy Rain Tonight

Weather Forecast Office
Midland/Odessa, TX
Issued June 16, 2018 2:50 AM CT

Flash Flooding Possible

A band of heavy showers and thunderstorms may set up across West Texas and Southeast New Mexico tonight as moisture increases over the region. Localized flash flooding is possible especially across the Presidio, Davis Mountains, upper Trans Pecos and southeast New Mexico areas.

f t NWSMidland

weather.gov/maf

A band of heavy showers and thunderstorms may set up across West Texas and Southeast New Mexico tonight as moisture increases over the region. Localized flash flooding is possible especially across the Presidio, Davis Mountains, Upper Trans Pecos and Southeast New Mexico areas.

Hazardous Weather

This Afternoon (Saturday)

Weather Forecast Office

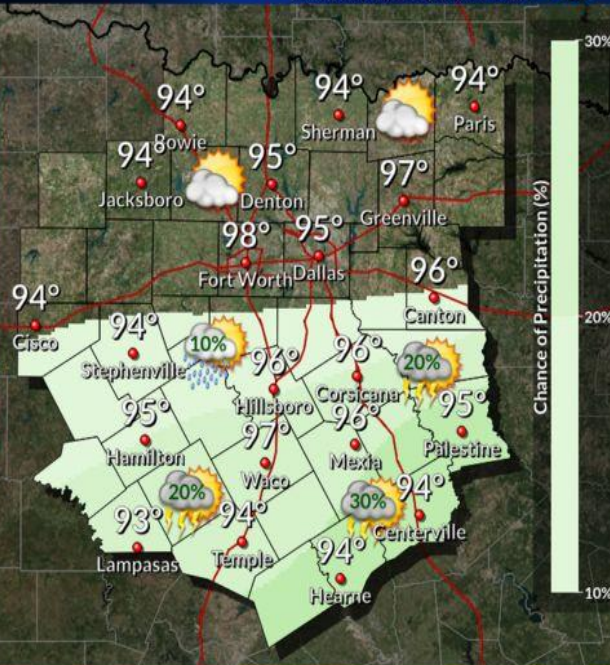

Fort Worth, TX

Issued Jun 16, 2018 5:16 AM CDT

Low Rain Chances In Shaded Areas

- Low chances for showers & tstorms across Central Texas.
- Severe weather not expected.
- South Winds 15-20 mph w/higher gusts.
- Highs mid-upper 90s.

f t NWSFort Worth

weather.gov/fortworth

It will be another hot day Today (Saturday) across North & Central Texas. Low chances for showers and thunderstorm do exist, mainly across Central Texas this afternoon! Gusty south winds 15 to 20 mph with highs in the mid to upper 90s. If planning outdoor activities, drink plenty of water and if in Central Texas, keep an eye to the sky. Thunder roars, head indoors!

Today

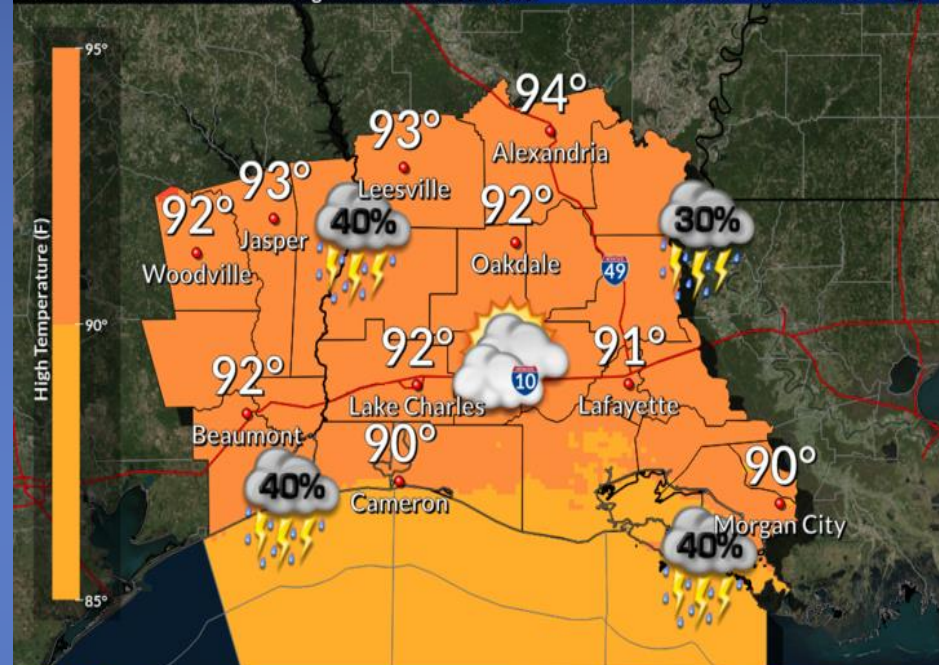

Weather Forecast Office

Lake Charles, LA

Issued Jun 16, 2018 6:53 AM CDT

Scattered afternoon T-storms as highs climb into the low 90s.

f t NWSLakeCharles

weather.gov/lch

Moisture off the gulf and afternoon heating will help to produce scattered showers and thunderstorms. Highs will be in the low 90s with South to Southeast winds 5 to 15 mph.

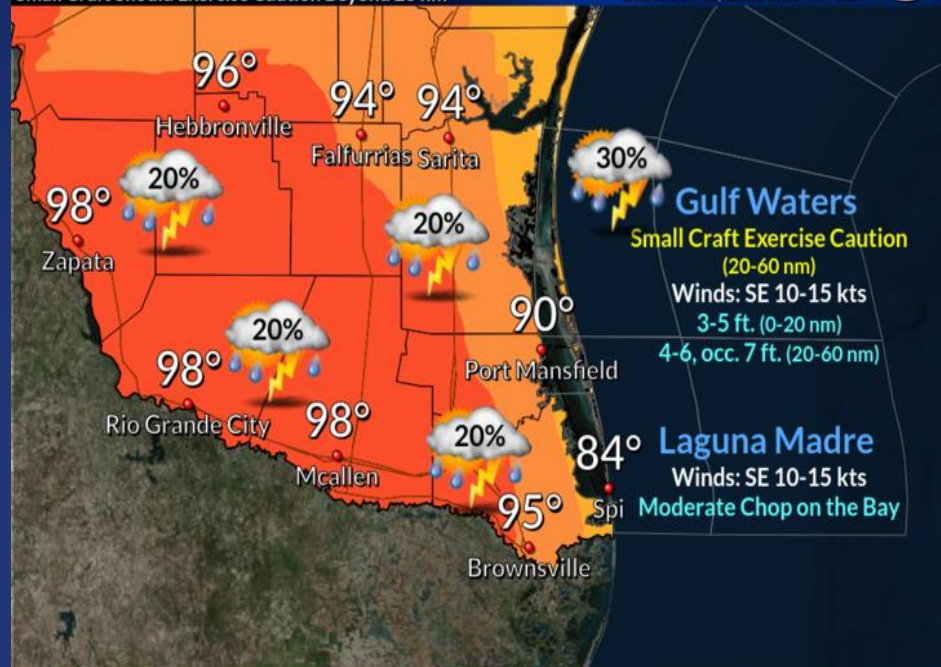

Hazardous Weather

Warm with Isolated Showers, T'Storms

Weather Forecast Office
Brownsville/RGV, TX
Issued Jun 16, 2018 6:28 AM CDT

Small Craft Should Exercise Caution Beyond 20 nm

[f](#) [t](#) [v](#) @NWSBrownsville

weather.gov/rgv

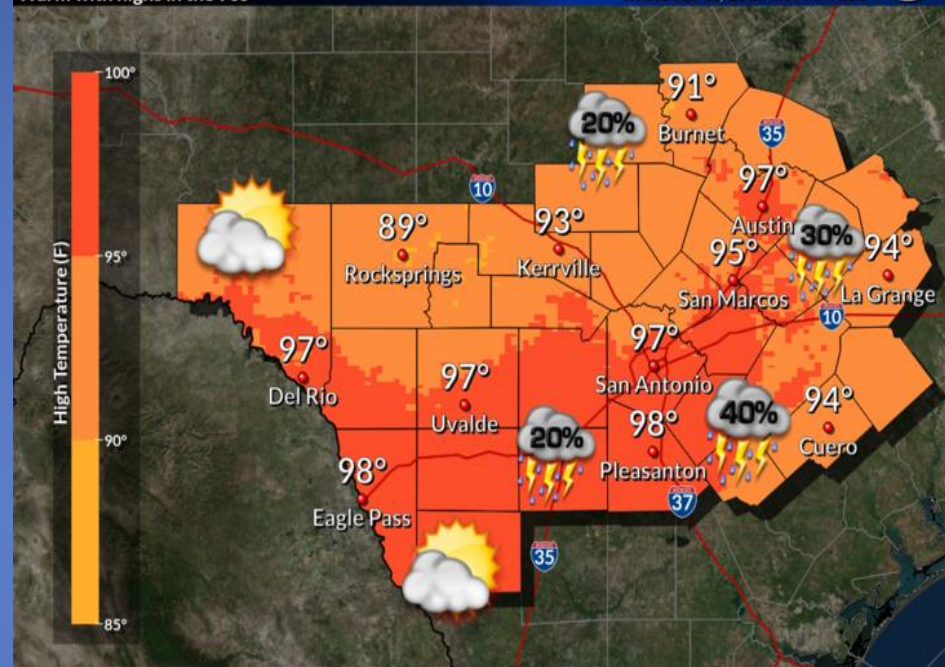

Another warm day is expected across deep south Texas with isolated showers and thunderstorms while scattered activity will trend across the lower Texas coastal waters. Small craft should exercise caution on the gulf waters beyond 20 nm.

Showers and Storms Possible Across the East

Weather Forecast Office
Austin/San Antonio, TX
Issued Jun 16, 2018 4:57 AM CDT

Warm with highs in the 90s

[f](#) [t](#) [v](#) NWSSanAntonio

weather.gov/ewx

Warm again today with highs in the 90s to near 100. Isolated to scattered showers and storms are possible across central and eastern areas. A few storms could produce gusty winds.

Hazardous Weather

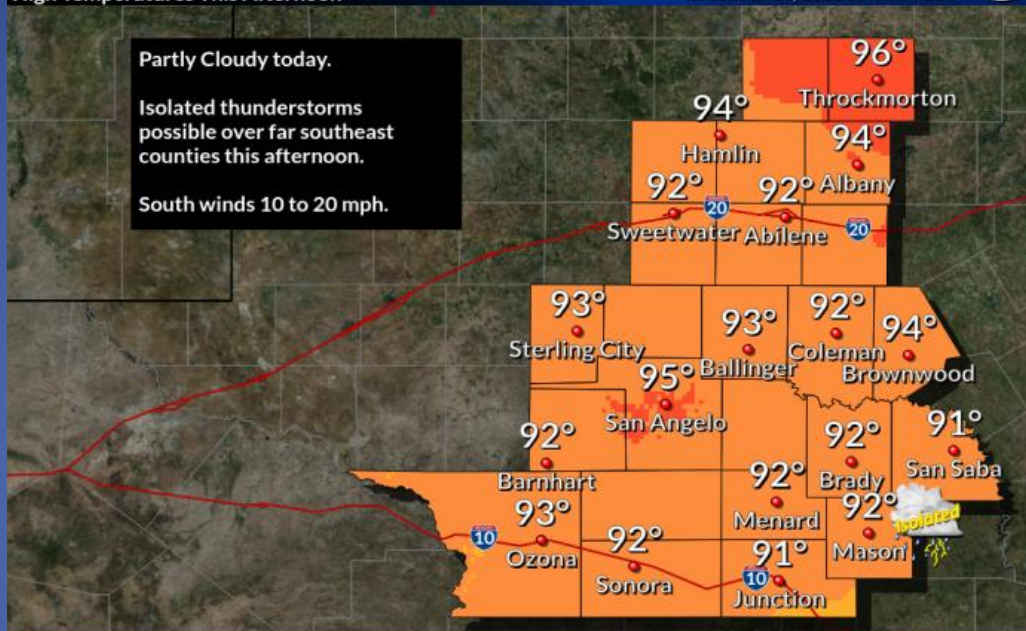

Hot Temperatures Continue

High Temperatures This Afternoon

Weather Forecast Office

San Angelo, TX

Issued Jun 16, 2018 5:45 AM CDT

[f](#) [t](#) [v](#) NWSSanAngelo

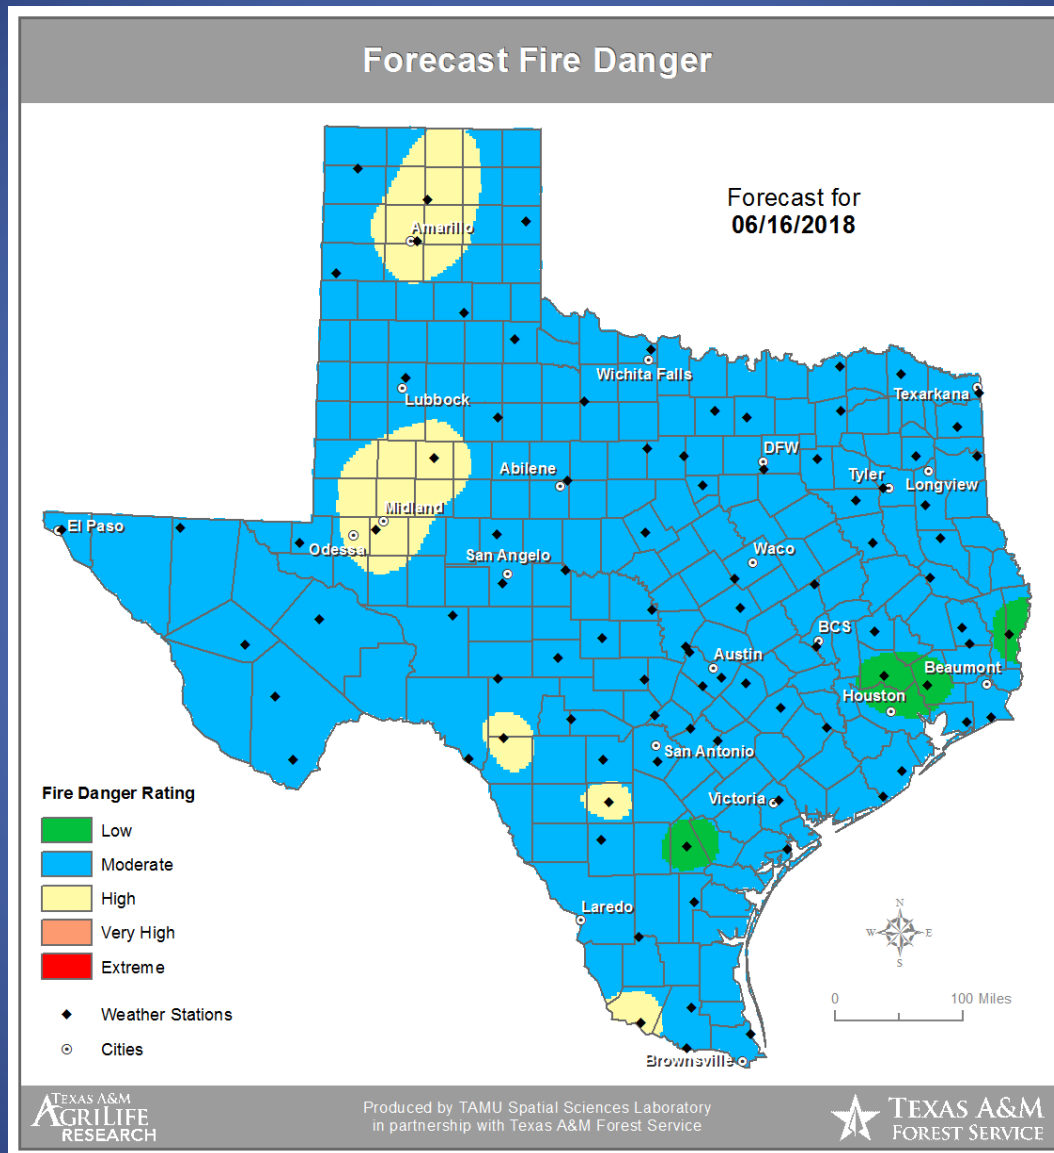

weather.gov/sjt

Expect another hot day across the area with a bit more cloud cover than yesterday. Isolated thunderstorms may affect areas east of a Junction to San Saba line this afternoon.
